Activity No: 19

Name of activity : Session on “Superstition” By Rajendra Koli

Date Conducted : 13/02/2018

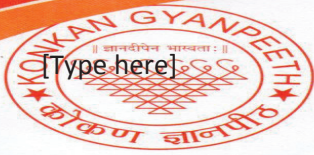

Participant Count:54 (faculty and NSS Volunteers)

Brief Description: A superstition is an irrational belief which originates from ignorance or fear. We usually associate superstitions with religions which are based on fear of the unknown and man’s attempts to appease supernatural powers. The only remedy of these superstitious blind beliefs is education and social awareness. The children also should be taught about science and reason. Finally only parents should guide them properly and they also should not encourage any kinds of blind belief and superstitious practices at home. To enlighten on such issues a social activist from ANIS, Mr. Rajendra Koli and his team demonstrated and explained various facts about faith and superstitious to NSS volunteers.
