**Brief Description:** Self-defense, especially for women, is of utmost importance in the kind of the world we live in today. Women, usually referred as the weaker sex, are considered easier targets. In a country like India where the cases of gender violence are on rise, out of which many go unreported, self-defense for women has become a necessity more than ever. NSS volunteers have arranged training sessions of different techniques to defend for ladies and villagers which got immense response.
